

## **TETRALOGIC PHARMACEUTICALS APPOINTS DR. ANDREW PECORA AS CHAIRMAN OF THE BOARD**

**Malvern, PA – May 6, 2008** - TetraLogic Pharmaceuticals, a privately held biopharmaceutical company announced today the appointment of Dr. Andrew Pecora, FACP, as Chairman of the Board. Dr. Pecora had served as a member of the Company's Board of Directors since January 2007.

John M. Gill, President and Chief Executive Officer of TetraLogic Pharmaceuticals, stated, "Drawing on his vast experience in hematology-oncology, cancer research and the business of healthcare, Dr. Pecora has contributed greatly as a member of the Board since his appointment last year. He has become actively involved in our IAP antagonist program and working with me on our company strategy. We look forward to continuing to work closely with Dr. Pecora."

"During the past year I have become confident that Smac Mimetics can be a major advancement in treating cancer patients," stated Dr. Pecora. "As I watched TetraLogic's program progress I decided I wanted to become more actively involved. When the Board asked me to consider the position of Chairman, I gratefully agreed."

Dr. Pecora provides TetraLogic with a wealth of expertise in the field of hematology and oncology, cancer research, novel therapeutic development and clinical trial design. Under his leadership, the Hackensack University Cancer Center has become one of the top cancer centers in the United States. Dr. Pecora has spent the past 18 years in various capacities at Hackensack University Medical Center, currently serving as Chairman and Executive Administrative Director of The Cancer Center. He also serves as Chairman and was a founder of Amorcyte, Inc., a company developing cell therapies for cardiovascular disease and as Chairman and CEO of a cell therapy manufacturing and services company, Progenitor Cell Therapy, LLC.

Dr. Pecora has authored and co-authored numerous articles, abstracts, books, chapters and monographs and is a frequent lecturer in the field of cancer. Prior to joining Hackensack Medical Center he was a hematology-oncology Fellow at Memorial Sloan-Kettering Cancer Center in New York. Dr. Pecora is licensed to practice Medicine in both New Jersey and New York and is a Professor of Medicine at UMDNJ.

### **About TetraLogic Pharmaceuticals**

TetraLogic Pharmaceuticals is a privately held company focused on discovering and developing drugs that modulate cell death pathways. Its lead program, Smac Mimetics to treat cancer, is in preclinical development. Other cell death pathway drug discovery programs are at an earlier stage of development. To date, TetraLogic has raised a total of \$44 million through private financings. The Company's investors include Amgen Ventures, HealthCare Ventures, Kammerer Associates, Latterell Venture Partners, Novitas Capital, Quaker BioVentures and the Vertical Group.
